### Profile

I'm Vincenzo, a passionate belgian web-entrepreneur, web-developer and web-addict.

I have very strong skills and experience in **managing** and **working on web applications** projects (project management tool, social networks, e-commerce, ...)

In 2007 I have created [Pepper & Koffee](#), a belgian **web agency** specialized in web applications development.

I 'm happy playing with web development languages such as Ruby on Rails and, in the same time, running a business as a project/financial/commercial manager.

### Experience
